

WATER INDUSTRY DONATES TO SOUTH-WEST CHARITY

Wannon Water co-hosted the 2009 Water Industry Operators Association of Australia (WIOA) Victorian Conference this month.

Wannon Water Managing Director, Grant Green said “Water industry operational staff and suppliers from all over Australia and New Zealand came together to view new technology and share ideas at the WIOA conference which was co-hosted by Wannon Water.”

WIOA raises money for Charity via its annual golf day and sale of caps. Via the generosity of WIOA members and corporate supporters, \$3000 was raised of which Wannon Water received half as conference co-host. Wannon Water can donate half the money raised to a charity of its choice.

“Wannon Water nominates The South West Community Foundation to receive the \$1500 donation as the Foundation is active across Wannon Water’s service region.

The South West Community Foundation’s charter is to strengthen the community of South West Victoria through the encouragement of local philanthropy. It does this by raising funds through special events, donations, workplace giving programs and bequests and makes grants available to eligible community groups from the revenue generated from its investments.

South West Community Foundation Director, Bill Quinlan said, “the Board of South West Community Foundation was extremely grateful for the donation, which will be used to progress its general activities across South West Victoria.”

Wannon Water Managing Director Grant Green and, WIOA President, Anthony Evans, (who is also a Wannon Water, Treatment Technologist), presented the \$1,500 cheque to The South West Community Foundation Director, Bill Quinlan at Wannon Water’s Warrnambool office on Monday, 21 September.
