Water Treatment Plant Operator - South West

Applications Close - 3rd February, 2012

Based in Seymour, we currently have the above opportunity available within our South Western District covering the regional centres of Nagambie, Euroa, Seymour, Broadford and Kilmore.

Applicants should have a genuine interest and an eagerness to learn about water industry operations. Applicants must be able to think clearly and logically and demonstrate an aptitude and ability for working with computer based management systems. The successful applicant will require good processing skills and must be capable of undertaking maintenance activities and investigations in relation to water treatment plant operations.

Applicants must access a position description and address the key selection criteria to be considered for an interview.

How do I apply?
