axis direct is a professional and ethical recruitment consultancy that guarantees client and candidate confidentiality. We are at the forefront in searching for and selecting key staff for our clients in the water and environmental sectors in Australian States. Axis direct has developed robust and trusted networks within Australia and overseas for the benefit of our clients and candidates.

Our clients are well respected Australian Water and Environmental Engineering Companies offering diverse solutions across a range of markets. They produce innovative, well-designed equipment for the key process industries as well as the potable water and waste water treatment sectors

Currently we are working on a number of Sydney/Melbourne/Adelaide based Sales opportunities:

To be considered for roles with our clients, you will possess the following experience, skills and attributes

- Experience selling process engineering technology and products;
- Sales Engineering or BDM experience in the water sector;
- A proven track record in achieving sales and business targets;
- Knowledge of plant, pipes, filtration, pumps, instrumentation or metering and dosing equipment is ideal;
- Significant experience in building relationships with engineers and other professional contacts.

For further details leading to interview call John Woodward on 0408 688 540 or Jennifer Squires on 0414 791831 or submit your resume online in total confidence below. [www.axisdirect.com.au](http://www.axisdirect.com.au)

Your details will not be sent to our client without your written consent.
