

SERVICE TECHNICIAN

- **Water Treatment & Chemical Metering Industry**
- **Diverse Role**
- **Attractive Remuneration**
- **Full Time, Permanent Position**

Hydramet Australia is a leading supplier of Chlorination Equipment, Chemical Metering Systems and Water Quality Instrumentation, and we are currently seeking a customer focused Service Technician to join their West Australia team based in Canning Vale.

This hands-on role involves the design, construction, project management, testing, installation and commissioning of water treatment equipment and systems, as well as carrying out after-sales servicing and repairs primarily to the potable water, waste water and municipal water utility markets.

The successful applicant will require:

- Suitable Trade and/or Electrical/Mechanical Qualifications
- Knowledge and Experience in Water Treatment Plant and Servicing
- Well developed diagnostic and fault finding ability
- Strong customer service focus, communication and reporting skills
- Demonstrated ability to work within a team environment
- Current Drivers License
- Available to travel - approx 1 week per month

This is an excellent employment opportunity for a multi talented trade person with appropriate electrical, mechanical, maintenance and problem solving skills, a willingness to learn, and an ultimate desire to succeed. You will be working with an exceptional team and the work environment is bright, clean and modern.

Although knowledge or a background within the potable or waste water treatment industry would be an advantage, full training will be provided to the successful applicant.

An attractive salary package is on offer to the successful candidate inclusive of a fully maintained company vehicle.
