

Team Leader - Catchments & Facilities

Port Macquarie Hastings Council's Water Supply Team and their visionary facilities are nationally acclaimed. We are offering a fantastic opportunity to join this talented and highly regarded team as a Team Leader.

As Team Leader - Catchments & Facilities you will be responsible for managing your team's work load and carrying out dam surveillance activities such as inspecting, monitoring and reporting on dams, catchments & their associated structures, You will also be responsible for contractor management, completing grounds maintenance, weed management, environmental landscaping/bush regeneration and forward planning for the team.

Experience in supervising maintenance activities and staff, and the ability to react to facility maintenance and/or water supply catchment management issues is essential.

Dam surveillance certification and the ability to carry out physical and chemical water quality sampling & testing using field and laboratory instruments would be highly regarded.

Remuneration will be competency based within the range of \$45,560 to \$51,270 per annum (salary component only).

Prospective applicants will require a job description to prepare their application. This may be obtained by downloading it from our website: www.pmhc.nsw.gov.au or by phoning (02) 6581 8111.

Job specific enquiries should be directed to Michael Murphy, Headworks Operations Coordinator 6581 8240.

Applications addressing the essential and desirable criteria should be received by the Human Resources Manager, Port Macquarie-Hastings Council, by emailing jobs@pmhc.nsw.gov.au or by mail to PO Box 84, Port Macquarie, NSW, 2444 no later than Friday 10 September 2010.
