

## Process Engineering Manager

- World leader in water solutions
- Diverse & interesting position
- Career opportunities

Veolia Water Solutions & Technologies, a division of Veolia Water and Veolia Environnement, is the world leader in water treatment, with 6,100 employees through 120 business units. We are the leader in engineering, design, project management and execution of construction projects for turnkey facilities and water treatment plants.

Present in Australia for over 70 years, we are the leader of Design and Build water and wastewater treatment plants. Our unique portfolio of differentiating technologies includes drinking water, industrial process water, and wastewater. We provide Design and Build capabilities, Engineered Systems, Equipment Supply, Leasing of Mobile Plants and Services, focusing on reuse and desalination. Our approach for delivering innovative water solutions makes us the partner of choice for municipal and industrial customers.

We are seeking a highly motivated and energetic Process Engineering Manager to join our head office team based in Pymont. This position will report into the Engineering Manager and act as a Team Leader for the process engineering department to coordinate and supervise their day-to-day activities, as well as acting as a Senior Design Engineer. Key responsibilities include:

- Detailed process design of water and wastewater treatment systems including the preparation of process flow diagrams, process & instrumentation diagrams, process schedules, data sheets process calculations etc.
- Allocation and management of process resources on projects and tenders
- Day-to-day supervision of the process engineering team of work priorities and performance
- Mentoring and training of less experienced process engineers
- Prepare and maintain design programmes and ensure deadlines are met;

The ideal candidate has the following:

- Tertiary qualifications in chemical/process engineering or a similar field
- CPEng status desirable
- Extensive process water / wastewater treatment design, installation and commissioning experience
- Demonstrated experience in managing, mentoring and training staff
- Strong written and verbal communication skills

At Veolia Water Solutions & Technologies we aim to recruit, develop and retain employees, and have built a unique culture and working environment based on our corporate values. We encourage every employee to take an active role in their career and learning development and offer competitive, flexible remuneration packages, and an achievable company wide incentive scheme.
